

Scuba-Quest **Burma Dive Sites** Scuba-Quest

Black Rock

Black Rock,

An outcrop dropping like stairs to over 70m (220 feet). Together with the 3 Stooges and West Canister this is the best diving found so far in the archipelago.

It's a wall dive site and deep dives are part of the menu !
Whale sharks are there, as they are in Thai waters, Manta rays, Grey reef sharks, Leopard sharks, Eagle rays, and sometimes Bowmouth guitarfish.

Whale Shark Black Rock

March 2002

Bottomline: Black Rock

Close shark encounters are virtually guaranteed here.
